A. LISTENING: CALLING ABOUT A CAR

Listen to the following telephone conversation and circle the answers as you listen.

- Hi. I'm calling about the ad for the seven hundred dollar car. Is it still for sale.
- Yes, it is.
- What kind of car is it?

- B. It's a Ford hatchback in almost perfect condition.
 A. Almost perfect?
 B. Well, it has a few minor problems.
 A. A few minor problems?
 B. Yes. It needs a new fan belt.
 A. Oh, that's no problem at all.
 B. Well, uh... we're also having a little trouble with the transmission. The fact of the matter is, it may need a new clutch.
 A. I see. Tell me, is there anything else wrong with the car?
 B. Well, as a matter of fact, the battery is a bit old.
 A. I see.
 B. And it probably wouldn't hurt to get a new air filter while you're at it.
 A. A new air filter?
 B. Yes. And I suppose it wouldn't hurt to have the alternator checked.
 A. The alternator?
 B. Yes. Oh. And incidentally, the brakes are squeaking... just a little. But those are minor things. And aside from the little problem with the gas gauge and the defroster, everything is really in tip-top shape!
 A. What's wrong with the gas gauge and the defroster?
 B. They don't work.
 A. I see. Tell me, does ANYTHING in the car work?
 B. Oh, yes. The horn and the warning lights work fine!

B. LISTENING TO DIRECTIONS

Listen and fill in the missing directional information.

- A. Good morning. This is ESL-To-Go! How may I help you?
 B. I'm registered for your one-day intensive English course for beginners, and I'm calling for directions from Canterbury.
 A. Do you have a pencil and paper?
 B. Yes, I do.
 A. Okay. Take the interstate north. After you pass a rest area, you'll see signs for Flagstaff. Get in the right lane and take Exit Six. The exit sign says Maple Street. Are you with me so far?
 B. Yes, I'm with you.
 A. You'll immediately go through a school crossing and will have to slow down. At the next intersection, there's a stop sign. Go straight, cross over a railroad crossing, and then take your next right onto a one-way street. You'll cross a small bridge, and we're located at the first corner on the right. There's a large sign out front. Did you get all that?
 B. Yes, I did.
 A. Then I don't think you should be in our beginning-level course. How about our one-day advanced level class?!

C. LISTENING: AT THE AQUARIUM

Listen and circle the correct answer.

Welcome to the Centerville Aquarium! We hope you find your visit here today fun as well as educational. Down on the lower level, you can watch otters and walrus as they go about their daily routines in our authentic ocean tank. This large tank in the middle of the aquarium is specially constructed so you can view its inhabitants from all levels by walking up and down the ramp. In here you can see salmon, eels, swordfish, and tortoises. You can also see the fish with probably the worst reputation—sharks. People are generally frightened of sharks, but in fact, the only type of shark known to attack without provocation is also the kind you're least likely to come across—the *Great White Shark*. You'll also see striped bass and flounder here in the tank.

Can you tell the difference between crocodiles and alligators? Many people mix them up. Currently, we have a special exhibit highlighting the differences between them. Come to the exhibit on the second floor.

And while you're on the second floor, come to our tide pool, where children are actually encouraged to get their hands wet! You can examine starfish, snails, and jellyfish, as well as mussels, clams, oysters, scallops, and eels.

In our smaller tanks, we have crabs and lobsters, and be sure not to miss the special octopus tank nearby.

And after you've finished your tour, come and enjoy our dolphin, seal, and whale show. Kids and adults alike will just love it! Shows are on the hour, but get there early! They fill up fast!

We sincerely hope you enjoy your day today here at the Centerville Aquarium!
